

Finalize and Export Stage

Finalize and Export Stage

This represents the absolute final milestone in the user experience pipeline, consolidating the entirety of the operational strategy modules into a single, definitive conclusion block.

Navigation & Collapse Component

This area acts as the final dropdown or accordion checkpoint in your mapping list:

- Stage Header: Displays "Finalize and Export Stage". A right-aligned collapse arrow indicates its position within a larger navigation structure.
- Active Substage Link: Displays "Finalize and Export Founder Journey Results", which serves as the ultimate target portal where a founder can lock in their inputs and generate their master report.

This final platform component serves as the ultimate summary dashboard for the entire entrepreneurial roadmap. It consolidates high-level brand data, key business metrics, and an interactive, stage-by-stage breakdown of the user's progress.

1. Export Portal & Header Summary

The workspace opens with an actionable recap layout:

- Main Stage Title: Displays "Finalize and Export Founder Journey Results".
- Instructional Subtitle: "Thanks for playing, here is your final report. Next steps, can we use this information to get you started on an investor pitch deck".
- Welcome Banner: A prominent blue gradient card welcoming the user with: "Welcome to Your Founder's Journey Export! Your comprehensive business roadmap is ready. Every

strategic decision, metric, and insight is here.”.

- Download Utility: Features a prominent white action button labeled Download Journey Report .
- System Notification Box: A card at the base of this initial screen reads, “Can't find Founder's Journey Brand Data. We could not find the required brand data or an error occurred while processing this brand.” (Note: This appears because the metrics have not yet been fully populated).

2. Performance & Positioning Summary

This section maps the financial benchmarks and distribution models configured throughout the application:

- Key Business Metrics Grid:
 - Total Addressable Market: N/A (Business Opportunity).
 - Serviceable Market: N/A (Target Audience Reach).
 - Monthly Revenue Target: No available (Sales revenue projection).
 - Customer Acquisition Cost: No available (Target CAC per customer).
- Strategic Positioning Layout:
 - Target Personas Card: Prompts for “Who you're building for”, displaying an empty user icon reading “No target personas available”.
 - Launch Strategy Card: Outlines “Your go-to-market channels” split across Social Platforms (“No launch strategy available”) and Direct Channels (“No launch strategy available”) alongside a Launch Date entry reading “No available”.

3. Interactive Journey Overview (The 7-Stage Checklist)

The platform itemizes every milestone of the application across a sequential collection of dropdown blocks. Each individual substage line features a right-aligned downward arrow chevron; clicking this chevron expands the module to display details like the substage description, estimated time, and completion date.

Currently, because the modules are unfilled, they display an oval badge reading "Pending".

4. Future Ecosystem Roadmap & Navigation

The workspace concludes with a secondary user retention card and controls:

- Ecosystem Update Banner: An orange notification panel stating: “We are working hard to bring to you updates, new journeys, tools and content. Stay tuned, exciting features are on the way! Meanwhile, feel free to explore our tools and make the most of your current journey.”.
- Quick-Link Hubs: Offers two white direction buttons inside the orange layout panel:
 - Go to Journeys →
 - Go to Tools →
- Final Form Control: A solid blue button marked Next → anchors the bottom-center of the entire frame to finalize the master reporting application.
